Dear County/State Workers & Parents,

While your child is residing at Home on the Range, he/she is often required to attend many different groups. As the facilitator of 7 Challenges, I sometimes use movies as a learning tool. These movies are geared towards adolescent behaviors that are related to drug and alcohol use/abuse and used in a therapeutic manner to help residents express themselves through discussion of the events they have seen. Some of these movies, as a consequence of real life events presented in them, may be rated R. I am asking permission from each of you to allow your child to view rated R movies when we use them in group. At the bottom of this letter is a section where you will be able to fill out a permission slip to allow or not allow your child to view rated R movies when they are shown.

Thank you for your attention to this matter. Our next 7 Challenges group is starting soon so please let us know of your decision.

Sincerely,

Jodi Ebel, LAC
