

The Ranch Hand

Volume 39, Number 3

Fall 2020

“Providing a safe home for youth who have experienced physical or emotional trauma, where every act is done with love to help them discover the dignity of the human person and learn the skills to manage life’s challenges.”

Spiritual Testimonial

One particular program that helps the children is the Spiritual program. Within the walls of the Holy Family Chapel, the children can be open and honest about their emotions and experiences. They know that they will not be judged, but receive support from each other and Home On The Range employees. It takes a lot of courage to share their stories in front of their peers, and to face what has happened to them. This is just a part of the healing process. The following story is a testimonial given by one of the girls during a Chapel service.

“I’m here to talk about my life and it has had many challenges so I hope you can understand. My mom gave me up when I was a year and four months old. I was placed in a home where I was sexually abused from ages 3 to 10. When it was discovered I was being sexually assaulted, somehow all the blame was put on me.

I was broken and confused and questioning a lot about life. During that time on a walk to school, a kid talked to me about God. I personally thought God was someone who answered all your prayers. I was like six and instead of prayers I called it pairs. Truth is, I had no clue how to pray or reach out to God til about 13. You may say no prayer is bad, but I would sit there and ask God for nothing but Barbie’s and a Christmas.

Anyway, when I was 13 years old, my only family, my grandma, gave me up to a foster home. This foster home was great. They taught me how to give God my trust and love. But long story short, I was kicked out of this home. Again, feeling blamed, broken and confused. After this, I was sent to my first group home. This group home is how I met my best friend. She is an amazing support for my life. I love her so much because I was really losing faith in God. Without her I am not sure I would be here today. I tried to commit suicide; three attempts in four days. My case worker sent me to a residential treatment facility. I got back on the right track and started to believe and love God again. I was there for six months and my faith was strong. I ended up going back out into the community but things got bad again.

I fell to a new low and ended up in situations that are horrible and full of hurt and pain. I blamed God for everything that has happened to me. Men, drugs, and alcohol became my counterfeit God. They did nothing but give me more and more pain. Clearly I didn’t make it and went back to placement.

I am now at Home On The Range. I am still healing from my trauma. I know that God is a God of second chances and that God has not given up on me. God has a plan for me. At HOTR, I have been going to Church, prayer group, and bible studies. I have had opportunities like this to share how God does not give up on any of us.

I am learning accountability in my decisions. Like in Romans 8:28: “for we know all things will work together for good to those who love God.”

I am learning to choose to love God in every choice. By doing this, all this bad that has happened to me can be used for good. It can redeem my life and help others.”

This young lady continues to be active in the spiritual program, engages with the youth minister to strengthen her faith, and is a role model to others.

G.E.D. testing site

Home On The Range will soon be a private G.E.D. testing site! Our application was recently approved by the Department of Public Instruction. The testing site will only be available to the HOTR children. The HOTR and Beach School District staff will monitor the students when they are studying or taking practice tests. Staff will supervise students as they take their final exams. This is a great opportunity for our students because the testing schedule won't be required to follow the school calendar. Our staff also won't have to schedule special trips to cities such as Dickinson, Williston, Minot, etc. Another advantage is if the student(s) completed part of the exams in another school district, they can now finish their series of tests while they are at HOTR. The best part is when our children successfully complete and pass all the tests, they have a G.E.D. certificate when they apply for a secondary education or employment opportunities.

Next year, the rodeo arena will look a lot different! The rodeo committee has been raising money for a new arena, bucking chutes, announcer's stand and holding pens. Thanks to donations of pipe and sucker-rod from Continental Resources, WPX Energy, Sinclair and Williston Tank Rentals, the arena is coming to fruition. Major corporations and many individuals have pledged to help with this project, either through sponsorships, financial contributions, or in-kind donations of time, labor or equipment. The goal is to have the new arena ready for the 65th Anniversary of the Match on **August 7, 2021.**
